to the stars

AERIAL DANCE COMPANY

FOR YOUR EVENTS

We dance during festivals, for eco-centers, lodges, for special events, etc. All we need is a tree, all we want is to let you dream! Beautifying nature, our show finds its inspiration in imaginary characters, leaving room for creativity, interpretation, or simply leaving room for you to daydream.

We use the natural landscape as a scene to express our art.

PERFORMANCES

SETTING

We will come take a look at the site and choose the best tree according to its health state and the needs for the show. All our installations are ephemeral and respectful. They will be removed at the end of the day.

DURATION

Our performances last between 25 and 45 minutes and can be repeated several times throughout the day.

DANCE

Contemporary dance, suspended in the air and in time, a little bit of magic and a lot of creativity. Our shows are for all audiences, taking them up to the stars.
